

Question Project – A Script by Mil M2

Question Project is a sensitive tool that does not give answers.

Question Project explores the doubt, the question, the uncertainty, the questioning, the interpellation, the curiosity, the problem, the mystery, the hypothesis, the unknown, the idea that moves, the supposition, the conjecture, the possibility, the presumption, the assumption, the figuration, the probability, the theory, the suspicion, the enigma, the incognito, the uncertainty. Question Project exists from the question of an unknown passer-by.

Question Project starts with a question that triggers another question.

- What would you ask a tourist?
- What would you ask your body?
- What would you ask your the river?
- What would you ask your neighbor?
- What would you ask Europe?
- What would you ask your government?
- What would you ask your landlord?
- What would you ask history?

Question Project is a large sign with movable letters and wheels, where we put questions that are the answers of passers-by.

Question Project is a conversation with a stranger on the street who decides to think a question.

Question Project always keeps the hand-painted helvetica, the black and white and the question mark.

Question Project is responsive, its letters move and allow you to write questions of up to 100 characters to people who participate.

Question Project has wheels and can move. move from one point to another. has also been on walls, floating on the river, or sailing a lake.

Proyecto Pregunta has different names Frage Project, Question

Project, Projeto Pergunta, Projecte Pregunta, and all mean the same thing.

Question Project is a project designed for public space, however...

Question Project visits the museum and other institutions in a private space.

Question Project is not autonomous. it depends on the other, it is relational.

Question Project is operated by humans, it is face-to-face.

Question Project is a contextual practice.

Question Project invites people to ask with us.

Question Project generates dialogue, knowledge, information, polysemy, multiverse.

Question Project is also an archive of questions that is thought in dialogue with the artistic, performative, craft, urban, architectural, educational, anthropological, philosophical, graphological, museological, typographical, intermediary and inter-trans-intra-anti disciplinary and also of disciplines that have no name or are about to appear.

Question Project does not have the answer.

Question Project **doesn't look for the answer.**

Question Project is a project that grows, that is open, that wants to travel, wants to move.

- Can the meeting in the street change society?
- Mother, are you still a communist after using the visa?
- **Why can't I get married**, if I, a woman, love another woman?
- Why are there so many cars and pollution?
- When will they give me the visa?
- Mother, why did you make me a boy, if I like boys?
- What if you were a refugee?
- Why is there so much racism?
- When are we learning to vote?
- Why is there a storm inside me?
- Why do you do what you criticise?
- What would you ask tourists?
- Why are they selling Amazon?
- Afraid of what?
- Where is public money going to?
- Why is football more important than family?
- What can we do together?

(Examples of questions devised by participants in Proyecto Pregunta.)
